SKIL BUILDS QUALITY INTO EVERY TOOL MANUFACTURED

SUPER BURNOUT PROTECTED MOTORS

Only Skil gives every electric motor it builds this important double protection.

1. All motor windings, using high temperature burnout resistant wire, are coated with a polyester resin that bonds them in place and provides additional insulation against moisture and heat.
2. Armature coil wires are welded to the commutator (never soldered) so they can't melt. All armatures are balanced for smooth operation and prolonged bearing life.

As a result, Skil Super Burnout Protected motors are able to withstand hard use and frequent, excessive overloads.

SAFETY STOP BRUSHES—Skil's Safety Stop Brush System automatically stops the tool from running when brushes wear out.

HOUSINGS—All Skil housings are precision made for strength and light weight.

DOUBLE INSULATION—All double insulated tools listed in this catalog are equipped with 2 prong plugs that fit all standard receptacles and can be used where grounding is inconvenient. They are rugged in design, equally comfortable to hold and built to SKIL's recognized standard of durability.

Other quality features include heavy duty bearings and precision gears designed in accordance to the task each product must perform.

MOTORS

ALL SKIL ELECTRIC TOOLS SHOWN IN THIS CATALOG ARE FOR OPERATION ON 115V AC UNLESS OTHERWISE SPECIFIED.

Universal motors used are suitable for operation on DC or AC, 25—60 Hz (formerly cycles). Speed Control tools are to be used on Alternating Current (AC) at 50-60 Hz. only.

CORDS

Tools shown as Double Insulated have two conductor cords and two prong plugs. All other tools have three conductor cords and three prong grounding type plugs.

SKIL HELPS YOU "SELL" YOUR CUSTOMERS

by providing such useful extras as the PTI Safety Rules for Power Tool Users; a listing of Skil's Quality Features which give you added "sales ammunition"; and the Skil "HOW-TO-DO-IT" BOOKLET written especially for people who are hesitant to pick up and use a power tool.

With these sales aids, you'll find that "SKIL makes it easy" for you to promote and sell the SKIL line.

YELLOW PAGES FOR BUYER ACTION

Yellow Pages

Skil's Yellow Pages Program puts you where the action is when prospects are looking to buy. Skil provides trade mark listings under "Tools Electric" and "Saws" in all yellow pages directories serving a population of 50,000 or more. You pay only a few pennies for your listing under the caption "Dealer."

Surveys prove the yellow pages is your most profitable promotional buy. See your Skil representative or local yellow pages salesman for details.

DEALER CO-OP AD PROGRAM

3.5% of the recommended retail price of Skil consumer product tools and accessories is available from Skil Corporation for cooperative advertising. Skil will pay 50% of the net cost of local consumer advertising prepared by retailers to the extent of the 3.5% allowance. Advertising eligible, under the rules of the program, includes local TV, radio, newspapers and circulars aimed at the consumer. In addition, Skil supplies free newspaper mats, radio and TV scripts. CHAIN SAW TOTEM POLE DISPLAY

This unique, colorful totem pole will be a merchandising highlight in any setting. Chain saws are displayed safely with bars and chains pointing down and sheathed with clear plastic sleeves for added protection. Strategically located hooks support saws at the angle and height most convenient for lifting off and easily replacing on display. The entire unit can be rotated, which makes all saws accessible for customer inspection. Fact tags for Models 1631, 1645 and 1661 are included with the display.

An absolute minimum of floor space is required for this unusually attractive and functional totem pole—only 2¼ square feet. The drum portion which hold the saws, is an extra heavy-duty cardboard core with wood grain finish. The pole section is two sided, formed plastic with three dimension sculptured effect. The entire display is 6'6" tall for maximum visibility, yet its slim silhouette does not block the overall view of the store.

With the purchase of any four Skilsaw Chain Saws (any mix) you can buy the No. 49575 Totem Pole Display and receive four No. 226554 16" Guard Chains FREE to offset the cost of the display.

ROTATING ACCESSORY MERCHANDISER

Put your power tool accessories all together with this attractive, compact merchandiser. This colorful display will catch the interest of your customers and invite them to buy. The rotating feature allows you to offer a broad line of the fastest selling accessories in less than two square feet of floor space. Each of the four panels measures 14" x 48" with an overall height of 71". The header sign ensures that your display will be seen above the crowd and tells your customers that the accessories are for all makes of power tools. The part numbers for each item are listed on the peg boards for easy and efficient stock control and reorder.

NEW SKIL "DETECTRON" TAKES THE GUESSWORK OUT OF TOOL REPAIR

Each of Skil's 63 modern Factory Service Centers is equipped with our new "DETECTRON" Electronic Tool Tester to insure the ultimate in guaranteed power tool repair service. Every tool brought in for repairs is analyzed electronically before repair work begins. Any defects in the entire electronical system — armature, field, switch or cord — is diagnosed quickly. A highly trained Skil technician using the latest factory approved repair methods and genuine Skil parts will make all repairs promptly, efficiently and economically. After repairs are made, the tool is again analyzed on the "DETECTRON" to insure proper operating efficiency.

SKIL GUARANTEE

SKIL Electric Tools are designed to the highest standards of excellence. Precise modern manufacturing techniques together with the use of the best materials available result in products that are rugged, comfortable to hold and assure trouble free service. Every SKIL tool has been carefully inspected at various stages of its manufacture and is guaranteed against defects caused by faulty material or workmanship.

Our obligation assumed under this guarantee is limited to the replacement of parts, which by our examination are proven to be defective and which have not been misused, carelessly handled, or defaced by repairs made or attempted by others. The completed tool must be returned to the nearest SKIL Facory Service Center or to an authorized Service Station with transportation charges prepaid. No other guarantee of our products, written or verbal, is authorized by us.

Any Skil Electric Tool listed in the current Consumer Products Catalog which does not perform satisfactorily due to defective materials or workmanship will be replaced free of charge if returned to the dealer from whom purchased within thirty days of purchase date. Accessories are not covered by this policy, nor are tools used in rental service.
